Lynn Dasteel is a Realtor working throughout San Diego. Among her many strengths is her strong negotiating skills, when representing either the Buyer or Seller in a transaction. Her ability to assist her clients in understanding contracts, disclosures, market analysis, and the actual escrow process from beginning to end, while being in constant communication throughout, has rewarded her with tremendous feedback from her clients.

"Buying or selling a home is a big deal. I take the responsibility of managing the transaction very personally. Matching your needs and dreams with the right home is just as important. It takes patience, commitment and focus to stay current on the inventory of homes and successfully close an escrow. I love my job! My job is to help you!"

Prior to Lynn's career in Real Estate, she was a clinical social worker, counseling families and children. She is a single mom of two teenage sons.

Andrea Schneider brings her intelligence, attention to detail, experience and professionalism to her mortgage business.

Andrea's success is due to her people skills and the excellent service that she provides to her clients. Her business is 100% by referral, due to the strong relationships she has grown and maintained with clients, Realtors, and other business professionals.

Andrea received her Bachelors degree with a major in Economics from Lake Forest College in Illinois. She received her law degree from California Western School of Law in San Diego in 1992. She ran her own law practice for many years before getting into the mortgage business.

Her clients say that they chose her because she personally takes care of the details of the transaction and is more than just a person that gets them a loan. She takes the time to consult with her clients and then gets them the right loan for their needs and circumstances.

Please call us for a FREE home buying or refinance consultation and/or to sign up for our FREE seminars.

Topics covered at the seminar:

- How to get started.
- The factors that determine whether you will get a loan.
- How credit scores are determined.
- What to do about mistakes on your credit report.
- The kinds of loans that are available.
- Tax savings.
- The steps of the buying process.
- The escrow and title process.

It is our pleasure to serve you!
